## ABOUT ME

Highly motivated and dedicated software engineer with a strong passion for web development. Skilled in creating engaging and user-friendly interfaces, I am eager to contribute to the success of dynamic and innovative projects. I am excited to collaborate with experienced professionals and take on new challenges that will allow me to expand my knowledge and expertise.

## EXPERIENCE

### FRONTEND DEVELOPER / EVERLUTION SOFTWARE

SEPTEMBER 2023 – PRESENT

React · GraphQL · Node.js · TypeScript · MySQL · Prisma

- Developed and maintained a variety of web applications using modern frontend technologies.
- Conducted code reviews and provided feedback to ensure code quality and adherence to best practices.
- Gained experience in backend development with Node.js, GraphQL, and Prisma ORM, ensuring seamless database integration and optimal performance.
- Collaborated with cross-functional teams to define and refine project requirements, enhancing the overall user experience.
- Continuously learned and adopted new technologies and methodologies to improve development processes and outcomes.
